

## SICOR Rescue Helmet

The protective helmet model R5840X, called EOM, represents the best protection system for the head for forest fire fighting, technical rescue and civil protection.

The helmet is CE marked in category III, in accordance with the following standards:

- EN 397:2001 "Industrial safety helmets"
- EN 443:1997 "Firefighter's helmets" (points 6.6 and 6.7.)
- EN 12492:2002 "Helmets for mountaineering"

The shell has cross band impact reinforcements with rounded edges and has a special ventilation system closable by a sliding lever on the top of the shell.

All components of the helmet can easily be removed and serviced.

The helmet is equipped with safety goggles, with one lens or in alternative with double lenses, certificates according to EN 166:2001 and EN 14458:2004.
